

Fabulous exhibition of fine art photography – not to be missed!

Last Sunday, Regula Keller hosted a Vernissage of fine art photography by Pally Learmond at Alex's Art Gallery (at home Regula Keller), Talstrasse 41, Klosters, which was attended by well over 100 people spilling out onto the terrace in the late afternoon sunshine!

Clair Southwell

The 17 framed prints, indeed works of serious artistic talent, come in varying sizes of limited editions and are very tastefully framed. Pally's work is truly dynamic, and the exhibition titled "Klosters and Beyond" brings together a selection of incredible images from this region with some equally stunning stand out photographs from further afield. Award-winning photographer Pally, a regular visitor to Klosters since early childhood, has lived and worked for over 15 years at various locations across the European Alps Mountain range. Immersed in his photography passion and practice, the level of commitment has established him as the go-to photographer in the genre of extreme or free skiing photography.
